

ROBOTIC PROCESS AUTOMATION GETS SMARTER

With TruBot Neuro, your digital workforce gets reasoning capabilities. Integration of cognitive technologies like artificial intelligence, machine learning enables your bot workforce to handle complex transactions which are generally reliant on human expertise and intervention. TruBot Neuro has cognitive powers to read, interpret and comprehend multi-lingual unstructured text from various sources like documents, emails, social media or even newsfeeds. With machine learning capabilities it constantly learns, enabling it to take smarter decision and improve process efficiency.

BENEFITS

**Smarter Decision
Making**

**Cognitive
Powers**

**Handles Complex
Transactions**

FEATURES

In-Built Artificial Intelligence

Comprehensive on-premises AI platform for pattern detection, text and data mining.

Machine Learning Capabilities

Auto-learns from multiple data sources, contextualizes, establishes relationships.

Cognitive Support

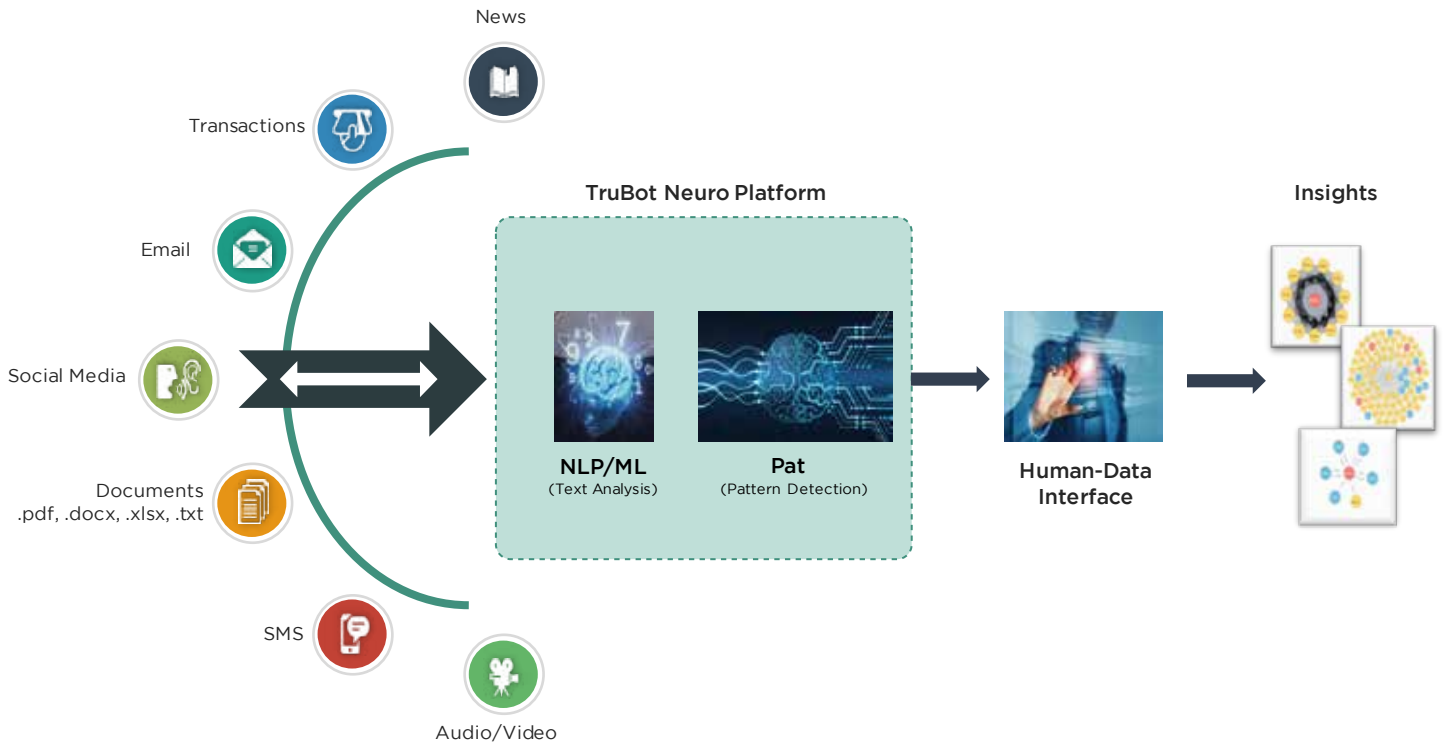

Algorithms to read, interpret and comprehend unstructured data.

Multi Lingual

TruBot Neuro reads, interprets and comprehends text from over 100 languages.

ARCHITECTURE

“Datamatics spearheads its cognitive RPA offerings with TruBot Neuro, which is a proprietary AI powered bot that can read, interpret, and comprehend large amounts of multilingual unstructured data from documents, emails, social media, and news feeds in over 100 languages.”

About Datamatics TruBot

Datamatics TruBot is a versatile, multi-skilled bot that automates a range of repetitive and rule-based processes without any manual intervention. TruBot has 95+ customers globally and has automated more than 800 processes across multiple industries.

About Datamatics

Datamatics provides Intelligent Solutions for data driven businesses to increase productivity and enhance customer experience. The company’s portfolio of service offerings spans across Information Technology Services, Business Process Management, Engineering Services and Big Data & Analytics all powered by Artificial Intelligence. It has established products in Robotics Process Automation, Advanced Analytics, Business Intelligence and Automated Fare Collection.
